Nonprofit Endowment Building Program

Endowment Gift Case Studies

Ann and Andy Goodkids, brother and sister, appreciate the start their mother gave them in life, especially the love of the outdoors she instilled in them. Andy, who lives locally, calls his sister when he sees the article about endowment funds in a State Parks publication. He asks if she would she like to work with him to create a fund in memory of their mother, for the benefit of Brandywine Creek State Park.

Both Ann and Andy are busy raising their own families, but are excited by the idea that a gift could help the State Parks and also pay tribute to their mother.

How can you help them?
